

DeWalt DXGNi35E - Inverter - 3400Watt

General characteristics

Brand	DeWalt
Subcategory	Generator
Year of construction	2026
Fuel	Petrol
Reference	V2276

Properties

Length	35cm
Width	58cm

DeWalt DXGNi35E - Inverter - 3400Watt

Description

The DeWALT DXGNi35E is equipped with advanced inverter technology that delivers clean, stable, and constant power. This makes it ideal for sensitive devices such as computers, tablets, and smartphones. One 12 V DC output and two 5 V USB outputs. With a peak power of 3400 watts and a nominal power of 3200 watts, this gasoline inverter generator provides sufficient energy for a variety of applications. Whether for construction sites, camping, or emergencies, the DeWALT DXGNi35E is a reliable choice.
