Description

Compact, battery-powered floor scrubber designed to scrub and dry in a single cycle. Thanks to its small turning radius and 350 mm width, this machine is ideal for intensive cleaning in narrow or high-traffic areas such as stores, offices, small warehouses, and food service establishments. Function: Scrubbing and drying in a single pass (Scrubber Dryer) Cleaning width: 350 mm (brush diameter) Suction width: 450 mm (for a dry result immediately after scrubbing) Working capacity: Up to approx. 1,350 m² per hour Battery: 24V / 32Ah (lead-acid or gel, includes external charger) Motors: Equipped with 2 motors (300W brush motor and 400W vacuum motor) Tank capacity: 10-liter clean water tank / 15-liter dirty water tank Dimensions: approx. 700 x 450 x 1050 mm
